May 2021
- Project Director**
R01AA0254845, Agency: NIH /NIAAA (Total Direct Cost: \$2,240,106)
“Mechanisms of Behavior Change in a Cultural Adaption of Motivational Interviewing”
Objectives are to: (1) Test established mechanisms of change in a new population, heavy drinking Latinx, and (2) Test novel mechanisms of change unique to the theoretically-based adaptation of motivational interviewing.
- Oct. 2018-
Mar. 2020
- Principal Investigator**
Bruce Jones Award (\$6,500)
“The efficacy of Two Way Prayer Meditation for people in recovery from substance use disorders: A randomized controlled trial”
- Designed a randomized controlled trial protocol
 - Conducted ongoing recruitment of study participants by building connections with various substance use treatment programs in the community
 - Implemented and oversaw the trial at four substance use treatment programs
- Aug. 2018-
Aug. 2019
- Co-Principal Investigator**
The University of Texas at Austin Research Fund (\$6,000)
“The effectiveness of mindfulness-based interventions for primary and secondary school students”
- Designed a single-case experimental study protocol to examine the effectiveness of a mindfulness-based intervention (MindUP) in improving students’ classroom behaviors
 - Wrote and submitted study protocol to the university IRB and the Austin Independent School District (AISD)
 - Trained a team of undergraduate/graduate research assistants to conduct behavioral observation of 14 fifth-grade students
 - Conducted intervention implementation fidelity assessment
 - Led and trained a team of doctoral and master’s students in conducting a meta-analysis to identify effective components of mindfulness-based interventions for the physical, socio-emotional, cognitive, academic, and behavioral outcomes among primary and secondary school students
- Sep. 2017-
Oct. 2019
