

Betsy Lopez

Deloitte & Touche LLP

Mrs. Lopez has over 10 years of experience in planning, mitigation, community recovery, and grants management. Her talent for community development, project management, collaboration, and meeting facilitation started early in her career where she supported New Orleans school recovery and revitalization of the foster care system following Hurricane Katrina. She is known for working with organizations to enhance disaster resiliency and cultivate a culture of preparedness. Mrs. Lopez specializes in hazard mitigation, having led some of the nation's largest Hazard Mitigation Programs down to local-level initiatives. Her international and national experience spans preparedness planning to exercise development. She currently leads a Disaster Response Team for the federal government, manages a Federal Grant Program for Native Entities, and has served as the Senior Planner for jurisdictions across the nation. She also teaches at the Disaster Resilience Leadership Academy at Tulane University, specializing in human and social factors following a disaster.

PROJECT EXPERIENCE

Work at Deloitte (2021-present)

- **Department of Commerce Native Entity Grant Manager for Digital Equity:** Work with National Telecommunications and Information Administration (NTIA) to develop and launch the Digital Equity Capacity Grant Program for Native Entities.
- **Louisiana STORM Manager:** Worked with the GOHSEP Hazard Mitigation Division to create the program and author the Intended Use Plan (IUP) for the pilot year for the Safeguarding Tomorrow Through Ongoing Risk Mitigation (STORM) Revolving Loan Fund. In addition to writing the IUP, I coordinated multiple stakeholder workshops, connected GOHSEP to other states attempting to receive STORM funds from FEMA, drafted public outreach and communication for IUP feedback and project solicitation, and worked in cross-collaboration with other state agencies and across GOHSEP to create a feasible plan for a revolving loan fund.
- **Louisiana Public Assistance Team Manager:** Manage a formulation team of 15 people that support 42 entities (cities, schools, parishes, electric co-ops, and non-profits) with Hurricane Ida, Laura, and Zeta and Winter Storm PA claim formulation, over 400 projects with best available costs over \$125 million in all categories, \$64 million in obligated projects as of September 2022, 406 and 428 mitigation, and final state payments. Manage the Task Order of approximately \$4.1 million and work closely with the Governor's Office of Homeland Security and Emergency Preparedness (GOHSEP).
- **National Flood Insurance Program (NFIP) Marketing and Outreach (M&O) Disaster Response Team Manager:** Created and currently lead the Federal response team tasked with maintaining relationships across FEMA, Regional, State, and Local offices and providing support before and following flood events. From October 2021 to July 2022, managed 31 activations with 10,119 stakeholder touchpoints. Designed the Standard Operations Procedure (SOP) and Crisis Communication Plans in line with NIMS and in coordination with FID Directorate plans. Manage a staff of four, coordination with the prime contractor, private sector partners, NOAA, and FEMA. Oversaw the development of the disaster response NFIP landing page, media monitoring reports, After Action reports, and field staff newsletters. Serve as the resident Subject Matter Expert (SME) for disaster equity and emergency management.

Featured Emergency Management and Public Health Work, Nation-wide

- Managed over \$1 million in project deliverables yearly.
